

HARRIS ANNOUNCES PURCHASE OF BUSINESS ASSETS OF AEK SOFTWARE

FOR IMMEDIATE RELEASE

OTTAWA, ONTARIO—May 31, 2007—Harris Computer Systems (“Harris”), a leading provider of financial, customer and student information management software solutions for utilities, local governments and schools, today announced that it has completed the purchase of the AEK business unit (“AEK”) of Thoroughbred Software International Inc. (“Thoroughbred”).

As a result of the purchase, the AEK customers and staff will become part of Harris’ Spectrum business unit. The AEK staff will continue to operate from their existing facilities in Schaumburg, Illinois.

“The acquisition of AEK builds on our strategy of regional expansion in the local government sector. AEK also provides us with a well respected parks and recreation product that we believe will appeal to several of our existing customers” said Jeff Bender, CEO of Harris. “We welcome the AEK customers, employees and products into the Harris family.”

“After being approached by Harris regarding the sale of the AEK business unit, we spent considerable time evaluating the transaction. Our careful consideration determined that selling the unit would be in the best interest of our AEK customers and Thoroughbred.” said Mark Lewis, Vice President Thoroughbred. “During the last ten years, AEK has been an important part of our company. We are confident that Harris will build upon our successes and bring a renewed focus to the business. Harris’ emphasis on local government solutions will provide new opportunities for our employees and customers. ”

“The AEK acquisition is an excellent complement to Harris’ existing municipal focused businesses.” stated Jerry Canada, Jr., Harris’ Spectrum business unit Vice President. “Both our Spectrum and GEMS units will immediately benefit from the ability to extend their product offerings to yet another key department within the local municipality. AEK will also benefit from access to an expanded sales channel.” Mr. Canada further said “AEK has been offering recreational solutions to recreation departments and park districts throughout the entire United States for more than twenty years. We are very fortunate to be able to retain with this acquisition all of the AEK employees who helped achieve this success. The seasoned AEK team will continue to maintain and enhance the existing product suite while moving ahead with exciting new products such as the recently completed Web Registration and Web Membership modules.”

Forward Looking Statements

Certain statements herein may be "forward looking" statements that involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of Constellation or the industry to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These statements reflect current assumptions and expectations regarding future events and operating performance and speak only as of the date hereof. Forward looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to vary significantly from the results discussed in the forward looking statements. These forward looking statements are made as of the date hereof and Constellation assumes no obligation to update any forward looking statements to reflect new events or circumstances.
